**Operating Instructions**

# SmartPanel

## Samsung

---

### TECHNICAL CHARACTERISTICS

---

- Enjoy all the apps available on Google Play in the integrated 10.4" Samsung Smart Panel with high quality bluetooth speaker in the Artalo mirror. Listen to music, watch movies and TV shows, or read fresh news in the morning. The SmartPanel has an Android operating system and a Full HD display with a resolution of 2000 × 1200 px. The SmartPanel mirror comes with a Samsung Pen, which you can use to conveniently control the panel. Thanks to PLS technology, you can see the screen from all possible angles, plus the mirror's surface is completely transparent in the SmartScreen area so you can see a clear image. Smart devices require power at all times. Therefore, if you choose to plug the mirror directly into electricity, you will need to provide another constant source of electricity for the mirror.

---

### WIRING INSTRUCTIONS

---

1. Turn on the Samsung Smart Panel (button located on the side of the mirror).
2. Select the desired language and region and click "Start".
3. Select the Wi-Fi network you want to connect to and enter your password.
4. If you have a Google account, sign in. If not, you can create a new account or skip this step.
5. If an update is available, it is recommended to install it to ensure the latest features and security.
6. Select a security method (e.g. PIN, pattern) and set it up as instructed.
7. Add other accounts such as Samsung account, email accounts or other applications.

8. Customize the Samsung Smart Panel to suit your needs and install the necessary apps from the Google Play Store.

9. The S Pen should work automatically. If not, make sure it is turned on and connected to the Samsung Smart Panel.

---
